

# BELLE MONT FARM

at KITTITIAN HILL

— ST. KITTS, WEST INDIES —

# THE FACTS

## LOCATION

Belle Mont Farm opened in December 12, 2014, and is located at Kittitian Hill, a responsible community for a sustainable future. Kittitian Hill's 400 acres of fertile farmland is set between Mount Liamuiga and the Caribbean Sea in St. Kitts, West Indies. The extraordinary site affords views of the rugged coastline and neighboring islands.

## ARRIVE IN STYLE

Arrive at St. Kitts' Robert L. Bradshaw International airport where you can arrange to be greeted by an experience team member outside the customs arrival hall; and be transferred to Belle Monte Farm, while enjoying some St. Kitts history along the way. The transfer will take 45 minutes.

## ACCOMMODATIONS

The first chapter of Kittitian Hill's luxury sustainable development, Belle Mont Farm ("Beautiful Mountain") is a collection of 40 individual and private accommodation including Luxury Cottages, two, three and four bedroom Luxury Villas as well as a four-bedroom Luxury Farmhouse set within an organic farm.

Accommodations are thoughtfully sowed into the "edible landscape" and designed by world-renowned architect Bill Bensley. Structures are built using Caribbean techniques, local materials and sustainable sources that mirror the architecture of traditional chattel houses. Luxury Cottages and Luxury Villas feature open verandas and private infinity pools, sweeping views, and al fresco bathrooms with rainwater showers and freestanding roll-top baths.

Private attendants are assigned to each accommodation and a concierge is on-call. Luxury amenities include films, which can be viewed on cinema-like screens, and fridges in our villas can be pre-stocked with groceries and wines, details and prices on request.

The Luxury Farmhouse is designed as a special place to share food and wine with family, friends and business associates. It provides ample space for up to eight people, and includes a large central pavilion with a private 100-foot infinity pool, expansive gourmet kitchen, and the Luxury Farmhouse can come equipped with a personal chef who can create an in-home farm-to-table dinner for guests, or lead a cooking class. Visitors are greeted upon arrival by the Luxury Farmhouse team, and will enjoy a freshly made signature welcome drink.

## THE EXPERIENCE

Guests can find a meaningful connection with food, nature and themselves. Travelers are immersed in ...

- *Farm-to-table experiences:* Engage with dedicated Kittitian farmers during the visit. Enrichment opportunities abound with cooking classes and workshops. Guests are encouraged to forage from the surrounding farmland - a landscape of passion fruit, bananas and pineapple.
- *Wellness:* Elevate mind, body and spirit with spa services offered in dedicated treatment Cottages. Indigenous ingredients and methods are used; the farm offers 12 essential oils ranging from lemongrass to vetiver grown right on property.

Guests can indulge with indigenous-inspired therapies and all organic "wet" treatments, before further rejuvenating the mind and body with a dip in the spa's private natural pools surrounded by hundred-year-old mango trees.

Create your own body scrub incorporating seasonal herbs to bring home the scents of the islands. The Workshop fitness center features state-of-the-art facilities and personal trainers, and yoga can be conducted on Guesthouse verandas overlooking St. Eustatius and the Caribbean Sea.

### IRIE FIELDS GOLF COURSE

Irie: the state of feeling at peace and harmony; term commonly used by members of the Rastafarian movement. Designed by legendary Welsh golfer-turned-golf-course designer, Ian Woosnam, Irie Fields is a 9-hole golf course that embraces its natural landscape and impresses even the most seasoned pro. On the world's first "edible golf course" that doubles as farmland, where players will snack on fruit growing there.

**General Manager:** Charles Maynard

**Affiliation:** Preferred Hotels & Resorts

**Getting There:** St. Kitts' Robert L. Bradshaw International Airport offers direct flights from London Gatwick, New York, Newark, Miami, Atlanta, Charlotte, Toronto, as well as San Juan.

### ORGANIC FARM

Kittitian Hill's organic farm offers the largest selection of tropical fruit in the Caribbean, from 100 types of mango to indigenous varieties such as mamie apples and soursop. Coffee crops and cocoa plants are in abundance, as well as vegetables, including Cassava.

### FEAST

Good food is at the heart of Belle Mont Farm. Farmers, foragers and chefs ensure that dishes are prepared with the freshest ingredients harvested from the surrounding land and Caribbean Sea. 90% of the restaurants' dishes are sourced from local purveyors and the farm.

The Chef oversees all food and beverage operations, including The Kitchen restaurant & The Mill bar located at The Great House, and the nearby Patio Garden, which offers fresh takes on traditional "comfort food" in a casual outdoor setting. The 'Farm Table' features a weekly outdoor communal farm table set amongst vegetable and fruit gardens with a retractable roof, allowing guests to dine under the stars on a clear night. With panoramic views of the sea, the Pool Grill and Bar offers several menu options and creative cocktails. Additional distinct dining experiences include Arthur's Sea-to-Fork Restaurant on a nearby black sand beach.
